- Administrators are in direct contact with students as they are teachers, so that the students get a direct solution to the study as well as other questions that arise during the study.
- Many students have got admission in the reputed medical institutes like AIIMS as well as IIT getting highest marks through our subject experts' guide.
- Many students who have studied in SOS have settled in the country and abroad and getting higher salary standard.
- The same team of the teachers at both the school - The School of Science (SOS) at Rajkot and Khambhala (Rajkot).
- Healthy competition among students through class work, mega test and phase route test creating stress free environment.
- Guidance and parental contact as per the personal progress report of the students observed every month.
